

**FOUND: 14-lb longhaired black and tan mini Dachshund.**

He was found a few days ago, crossing Ager Road near Nicholson in Hyattsville, with no collar. However, he has apparently been well cared for and is in good health, with a seemingly calm personality. He has a microchip embedded, but the microchip was never registered, so we cannot use this to find his owner. At the moment he is safe and being cared for in Hyattsville.

If you know whose dog this might be, please contact:
